

ReGUARD4™

Bunker Gear Liner Detergent

TECHNICAL DATA SHEET

USE FOR:
Tough grime / Soil
Soot / Hydrocarbon
Removal from liners
and soft content

No Bleach / No Chlorine

**Professional
Formula**

PRODUCT OVERVIEW

ReGUARD4™ Bunker Gear Liner Detergent is a concentrated professional grade detergent designed for tough grime, soil and soot removal. The special formulation combines ingredients that make it ideally suitable for soft content restoration and laundering. It is biodegradable and contains no chlorine and no bleach. It is compatible with HE machines.

ReGUARD4™ Bunker Gear Liner Detergent is effective over a wide range of water temperatures and hardness conditions.

ReGUARD4™ Bunker Gear Liner Detergent contains an effective soil release agent which works well in dissolving oil and grease, making it particularly effective on hydrocarbons.

ReGUARD4™ Bunker Gear Liner Detergent's containing agents help prevent soil redeposition. Its colour protection ingredients prevent fiber from fading and dyes from transferring onto other garments. This ensures the longevity of the liners.

ReGUARD4™ Liner Detergent is low foaming and completely soluble. It leaves no residue in the machine or on liners. It is designed for use in a professional laundry capacity.

ReGUARD4™ Liner Detergent does not affect the function of Nomex®, Gore-Tex®, Reflector Tape, Leather, Thermal Liners and Velcro® when used as directed. ReGuard4™ Liner Detergent meets NFPA 1851 (1008 edition) Standards, Section 5.

PRODUCT SPECIFICATIONS

Appearance:	Clear, orange to amber coloured liquid
Odour:	Pleasant neutral fragrance that dissipates quickly
Specific Gravity:	1.02 g/ml
Viscosity:	10-40 cps, Spindle #1 @30rpm, 22°C
pH:	11.0 +/- 1.0
Bleach:	none
Chlorine:	none

PRODUCT USAGE

Recommended dosage: 5 – 10 mL per Kg of material to be laundered.

You may wish to start at the lower end and experiment with incremental increases. Local conditions, preferences and water hardness will vary the final dose.

Use warm water; the temperature should not exceed 40°C.

Compatible with ReGUARD4™ Bunker Gear Cleaner.

SHELF LIFE & STORAGE

Shelf life of 5 years when in unopened containers.
Store at temperatures between 10°C - 40°C.

PACKAGING

4L	Standard jug with a handle
20L	Standard cube HDPE Pail
